

## **TREATMENT OF RINGWOMB IN THE EWE BY CALCIUM AND NALOXONE ADMINISTRATION**

VALENTINI L., GHERGO P., VITELLI G., MINOIA P.  
Atti S.I.S. Vet., LIV, 111-112. 2000

Four ringwomb cases associated with disticia were treated by epidural administration of calcium and Naloxone. The therapy was able to remove stenosis and to allow lambs birth through the natural way.
